Are you racing against a ringier?

By Karl Fredrickson

Working to win here, folks. The new gear technology you'll discover in this issue will help you get the most out of your engine. It's not just about the tech, it's about the results.

I have got plenty of effective, fast, and efficient ways to boost your engine's power. (Look, I know. I've tested them on more than 100 engines. I know what works. I know what doesn't. I know what's the most effective way to get the most out of your engine.)

Even if you're not a racing enthusiast, you'll find this issue a real eye opener. It's not just about the tech, it's about the results. It's about the power you can get from your engine. It's about the power you can get from your engine. It's about the power you can get from your engine.

UNDERSTAND THAT I'VE BEEN IN THE RACING BUSINESS FOR 20 YEARS.

## » Ad Preparation

Speedway Illustrated requires that all ad files be submitted as single page, high-resolution PDF (press-ready), or PDFx1 files. For multiple ads, send each ad in a separate PDF file. Please email PDFs to sales rep: drobbie@speedwayillustrated.com.

Do not build ads using the default paper size of 8.5" by 11". Set the document page size to match Speedway Illustrated's ad trim size exactly.

Please be sure that your name and date of issue is included in the ad's label. (Example: Company\_0120.pdf)

*"Speedway Illustrated is THE great magazine for short track racers and fans. The tech articles are so good, I've been telling my road racing friends to subscribe."*
